a
SIR
final size
transmission probability β
b
SIS
tie reinforcement
node self-excitation
prevalence
transmission probability β
c
simplicial contagion
prevalence
transmission probability β
d
threshold contagion
prevalence
transmission probability β
e
node pole at scale (SIS)
χ/N = Var(ρ)/⟨ρ⟩
N = 500
N = 1 000
N = 10 000
transmission probability β
